**Section 2. CHAPTER REBATES**

Chapters will be credited with the amounts designated in the accompanying table for each verified Annual and Quarterly meeting, based on chapter membership at the end of the quarter. Funds may be accumulated up to the applicable maximum in the table. If a chapter’s membership drops enough to be subject to a lower maximum, it may retain any funds over that lower maximum until the funds are spent down to the new maximum. Funds will be provided to chapters only if they have submitted the required, signed, annual financial audit statements. These funds will be held in a special account by the SEA central office. Chapter treasurers, with written authorization of their chapter presidents, may draw against their respective account; such draw shall be payable to the chapter treasury.
